WORK EXPERIENCE

Software Engineer (Mobile & DevOps)

Codebxo Pvt Ltd

Dec 2025 - Present

- Architected Clynova E-HR from scratch, a multi-tenant SaaS HRMS supporting 2,000+ daily active users with payroll, biometric attendance, violation workflows, and digital asset management.
- Designed 15+ C#/.NET microservices with PostgreSQL and Apache Kafka, secured service communication with random ssl secrets and application access using RBAC and JWT authentication.
- Engineered real-time React Native and React experiences using SignalR, WebSockets, and Redis Pub/Sub; scaled Clynova CRM for 5+ enterprise clients with TypeScript, Expo, and FCM.
- Automated GitHub Actions CI/CD with unit and integration tests, Docker Hub image publishing, and zero-downtime rolling production deployments.
- Contributed to mobile release workflows for Google Play Store and Apple App Store deployments, including production build configuration and submission readiness.
- Architected AWS and DigitalOcean infrastructure using EC2, RDS, ElastiCache, S3, CloudFront, API Gateway, Droplets, Nginx, SSL automation, and CDN routing.

Software Developer Intern

UKSHATI Technologies

May 2025 - Nov 2025

- Contributed to enterprise ERP inventory and purchase-order modules using Next.js, React, Node.js, Express.js, MySQL, and Redis.
- Implemented a Docker-based CI/CD pipeline to automate application deployment and improve release consistency.
- Built responsive static websites and landing pages for companies and clients, strengthening their online presence and supporting business growth.
- Deployed the ERP platform on Raspberry Pi for industrial use, supporting reliable day-to-day operations.
